Welcome to the new venue of KoreAnesthesia 2019!
Paradise City, Incheon

Please check the brief information at the below

The Best Place for KoreAnesthesia 2019

Address: 186, Yeongjonghaeannam-ro 321beon-gil, Jung-gu, Incheon, Korea

Facilities: Hotel, Boutique hotel, Convention, Casino (Foreigner only), Theme park, Club, Pool, Spa, Shopping arcade, Gallery, etc.

Number of Rooms: 1,117 Rooms
Paradise City

Grand Ballroom (Room 1-3)          Emerald Room (Room 4-5)

Sapphire Room (Exhibition)        Meeting Room (Room 6-9)

RUBIK (Luncheon)                  Club CHROMA
As a speaker or leadership, KSA members went to ASNACC 2019 which was successfully finished under the agenda of "Multidisciplinary approach for well-being" in Nara, Japan.

In ASNACC 2019, KoreAnesthesia 2019 secretariat held the booth to promote this year's scientific meeting, and we've got more than 20 participants or exhibitors' contacts who are interested in our congress. We hope to see them in KoreAnesthesia 2019!
Professor Yoon ji Choi was invited as a speaker and an international faculty on SANCON, which is held at Kathmandu, Nepal. She delivered two lectures, and thanks to her active participation on the congress, lots of people showed their interests on KoreAnesthesia 2019. We've got many inquiries of registration and abstract submissions. We hope to see them all in KoreAnesthesia 2019!
Randal Blank received a B.S. in Biology in 1981 and a Ph.D. in Physiology in 1986 from The Pennsylvania State University and a M.D. from the University of Virginia School of Medicine in 1997. After residency training in Anesthesiology at the University of Virginia Health System, Dr. Blank joined the faculty where he became the Chief of Thoracic Anesthesia. He was awarded American Board of Anesthesiology Certification in 2002 and is currently licensed in the Commonwealth of Virginia, USA.

His primary clinical interests include thoracic anesthesia as well as international medicine; he has served in various teaching and clinical roles in India, the Dominican Republic, and Rwanda. His professional affiliations include the International Anesthesia Research Society, Society of Cardiovascular Anesthesiologists, American Society of Anesthesiologists, and the Academy of Distinguished Educators and he is currently involved in clinical research in the following areas: anesthetic factors in the pathogenesis of lung injury, lung injury during one lung ventilation and thoracic surgery, optimizing protective ventilation during thoracic surgery, and enhanced recovery after thoracic surgery.

He is Associate Editor of the text: Principles and Practice of Anesthesia for Thoracic Surgery, served as a founding member of the Organizing Committee for the Society of Cardiovascular Anesthesiologists Thoracic Anesthesia Symposium and currently serves as the Coordinator for Workshops and Problem Based Learning Discussions.
Invited Speakers

Dr. Vincent Chan received a Bachelor of Science degree (Biochemistry, Honors) and his MD degree from McGill University, Montreal and then obtained postgraduate training in Anesthesiology at University of Toronto, Toronto and board certification (FRCPC, Anesthesia).

Dr. Chan is acknowledged by his colleagues as an international leader in the fields of regional anesthesia and pain medicine. In 2009, he was awarded the Gold Medal Award by the Canadian Anesthesiologists’ Society, the highest personal award in recognition of his contribution to anesthesia in Canada through excellence in teaching, research, professional practice in the field of ultrasound guided regional anesthesia. He was President of the American Society of Regional Anesthesia and Pain Medicine (ASRA) from 2009 to 2011. In 2011, he was conferred with the award of the FRCA Fellowship by Election by the Royal College of Anaesthetists (UK).

In May 2013, he received the International Anesthesia Research Society (IARS) Teaching Recognition Award for Achievement in Education. In October 2013, he received the Distinguished Service Award from European Society of Regional Anesthesia and Pain Therapy (Spain) for outstanding clinical, educational and scientific achievements in anesthesiology, and for contributions to the increased knowledge and practice of regional anesthesia. In April 2016, he received the Gaston Labat Award from ASRA for outstanding contributions to the development, teaching and practice of regional anesthesia. In September 2016, he was conferred with the Carl Koller Award by the European Society of Regional Anesthesia and Pain Therapy in recognition of his outstanding lifetime contribution to the field of regional anaesthesia and pain medicine. In April 2017, he received the Distinguished Service Award from ASRA.
Invited Speakers

Dr. Satoru Ogawa, graduated at Hyogo College of Medicine (JAPAN) in 2004, and obtained a PhD degree at Kyoto Prefectural University of Medicine (JAPAN), is an assistant professor of Kyoto Prefectural University of Medicine, Department of Anesthesiology.

He was a postdoctoral research fellow at Emory University, Department of Anesthesiology, Division of Cardiothoracic Anesthesia (GA, USA) in 2012-2014, and learned research techniques about blood coagulation and hemostasis under Prof. Kenichi Tanaka.

His research interest is in the mechanisms of coagulation with a special focus on laboratory and clinical investigations in perioperative settings, using whole blood coagulation analyzers, thrombin generation assay, flow chamber system, and e.t.c. He won a Yamamura memorial award, best research works in 2019, in Japanese Society of Anesthesiologists (JSA).

Currently, he has served on a committee of academic affairs in the Japanese Society of Cardiovascular Anesthesiologists (JSCVA, Blood & coagulation management), and is a reviewer for more than 10 international peer-review journals in the area of anesthesiology or blood coagulation/transfusion.

Topic for KoreAnesthesia 2019

• Point-of-care coagulation monitoring in cardiac surgery
Invited Speakers

Donat Spahn is Professor and Chairman at the Institute of Anesthesiology, University and University Hospital Zurich, Switzerland. He was awarded his medical degree at the University of Zurich, before completing several clinical and research posts within Switzerland and the United States. He was Professor and Chairman of the Department of Anesthesiology at the University and University Hospital of Lausanne, Switzerland, for six years prior to his current position.

Prof. Spahn’s primary research areas include concepts to minimize the use of perioperative blood products and the management of massive bleeding. He is one of the founders of Patient Blood Management and he was involved in the development of the European guidelines for the management of bleeding following major trauma. Prof. Spahn has published more than 355 scientific articles, 14 books and more than 40 chapters, including numerous original papers and review articles regarding the transfusion of blood products. His h-index is 64. He has served in the editorial board for various anesthesia journals and has participated in numerous committees and scientific advisory boards.

Topic for KoreAnesthesia 2019

- Patient blood management: A focus on preoperative anemia and iron deficiency treatment
- Patient blood management: Advanced perioperative coagulation management
